

JOINT COMMITTEE ON HIGHER SURGICAL TRAINING

SPECIALIST ADVISORY COMMITTEE IN OTOLARYNGOLOGY

OPERATIVE EXPERIENCE

NAME

APPOINTMENT

Date Of Appointment:

Name of consultant supervisor:

NOTE: This register should be maintained from the time that the Trainee is accepted on to a Recognised Training Programme The Trainee is asked to remember that the register and the totals should be brought with him/her to the interview which will determine the period of training.

In the ordinary course of events this interview will take place at the beginning of the final year of training.

This list must include **all** otolaryngological operative procedures carried out by the Trainee in the recognised training post.

I certify that the register of operations shown below is correct.

Date:

Signature of Consultant Supervisor

I certify that the details given below refer only to operations carried out by me personally or were operations at which I acted as assistant.

Date:

Signature of Trainee

NAME OF TRAINEE:

TRAINING SCHEME:

Operations should be entered in chronological order. Please duplicate this sheet as necessary.

Date	Procedure	Surgeon	Assistant

COLLECTED FIGURES

When this register is submitted to the SAC for assessment of Training, the figures should be collated under the following headings.

HEAD & NECK

Procedure	Surgeon	Assistant
Tonsillectomy		
Adenoidectomy		
Adeno-tonsillectomy		
Adenoidectomy and myringotomies		
Adeno-tonsillectomy and myringotomies		
Quinsy		
Lymph node biopsy		
Sub-mandibular duct surgery		
Sub-mandibular gland excision		
Branchial cyst		
Laryngoscopy		
Oesophagoscopy		
Bronchoscopy		
Laser and Teflon treatment to larynx		
Styloid process surgery		
Tongue and oral lesions including laser		
Tracheostomy		

HEAD & NECK (contd)

Major

Procedure	Surgeon	Assistant
Thyroidectomy		
Thyroglossal cyst		
Parotidectomy		
Uvulo-palatopharyngoplasty		
Laryngo fissure		
Laryngectomy		
Laryngectomy and block dissection		
Cordopexy		
Epiglottopexy		
Partial or total glossectomy		
Pharyngotomy		
Pharyngectomy		
Pharyngolaryngo-oesophagectomy, with or without radial neck dissection		
Repairs with deltopectoral, myocutaneous flaps, gastric transposition or free jejunal grafts		
Mandibulectomy with or without radical neck dissection		
Radical neck dissection		
Cricopharyngeal myotomy		
Pharyngeal pouch exision		
Dohlman's procedure		
Facial flap repairs		
Other major procedures		

OTOLOGY

Procedure	Surgeon	Assistant
Myringotomy with or without grommet		
Aural polypectomy		
Excision and grafting lesions of pinna		
Pre-auricular sinus excision		
Major		
Myringoplasty		
Myringoplasty with cortical mastoidectomy		
Tympanotomy		
Tympanoplasty		
Ossiculoplasty		
Stapedectomy		
Modified radical mastoidectomy		
Radical mastoidectomy		
Osteoma external canal		
Meatoplasty		
Pinnaplasty		
Labyrinthectomy (membranous, bony or ultrasonic)		
Saccus decompression		
Petrousectomy		
Eighth nerve or acoustic surgery (trans-labyrinthine, posterior fossa, middle fossa)		
Facial nerve decompression		
Congenital ear surgery		

Cochlear implant		
Skull base surgery		
Osseous integrated auricular implants		
Other major procedures		

NASAL SURGERY

PROCEDURE	SURGEON	ASSISTANT
E.U.A nose, nasopharynx		
Antral washout		
Foreign body removal		
Turbinate surgery		
Intranasal antrostomy		
Nasal fracture reduction		
Malar fracture reduction		
Nasal polypectomy		
Septal surgery (S.M.R., Septoplasty)		
Major		
Ethmoidectomy (intranasal, external, trans-antral)		
Caldwell Luc		
Vidian Neurectomy		
Frontal sinus drainage		
Fronto-ethmoidectomy		
Osteoplastic flap		
Lateral Rhinotomy		
Septorhinoplasty		
Rhinoplasty		

Choanal atresia surgery		
Hypophysectomy		
Maxillectomy		
Oro-antral fistula repair		
Palatal fenestration		
Arterial ligation (external carotid, trans-antral, maxillary or external ethmoid)		
Dacryocystorhinostomy		
Orbital decompression		
Other major procedures
