

JCST TRAINING FEE 2025–26

The Surgical Royal Colleges of the UK and Ireland are committed to ensuring that surgical training meets the highest standards and supports the surgical workforce of the future. The Colleges continue to be aware of the financial pressures on trainees and have again taken the decision to freeze the JCST training fee at £260 for another academic year. This will result in the fee being held at this level for nine consecutive years.

The JCST training fee supports not only the running costs of all essential services and activities delivered by the [Joint Committee on Surgical Training](#) (JCST), on behalf of the four Colleges, but it also supports new developments and improvements, including additional investment in IT infrastructure, to meet security and new technology requirements.
